ENVISION SAFER SCHOOLS

ENVISION SAFER SCHOOLS

Our mission is to make school grounds safer by **monitoring**, **predicting**, and **managing** incidents effectively.

School Safety Cloud®

AI-Driven Incident Management, Mass Notification, Emergency Operation Center and Anonymous Reporting Solution

IMS
INCIDENT MANAGEMENT SYSTEM

What if we could prevent bullying before it even happened? What if we could see patterns leading to suicidal behavior? Kokomo24/7 IMS learns from the past and analyzes in real-time, to predict and prevent.

ARS
ANONYMOUS REPORTING SYSTEM

School safety hinges on involvement by every part of a community. Through Kokomo24/7®'s anonymous reporting system (a.k.a. Tipline), teachers, students, faculty, and everyone in between have the power to take safety into their own hands by reporting on suspicious or otherwise problematic activity via mobile app or website. Submissions are sent to a triaging portal powered by an AI-based TruScore®.

EOC
EMERGENCY OPERATION CENTER

Should an incident occur, do you still pick up a phone and call someone? Kokomo 24/7™ EOC provides school operations and safety officials with instant situational awareness so emergencies are handled with informed decisions.

About Kokomo24/7®

We have decades of experience in public safety with FEMA, Los Angeles Unified School District, New York Police Department, and the US Air Force to deliver an all-in-one safety cloud for schools.

100% built on the cloud. Easily sign-up, configure, and get started.

Products built by an experienced software team with enterprise-grade Software-as-a-Service.

Stay on top of school safety utilizing industry compliant features.

Used by over 1000 Schools.
