

**AMENDMENT 2  
CONTRACT DIR-VPC-03-018**

**between  
State of Texas, acting by and through the Department of Information Resources  
and  
Oracle Corporation**

This Amendment 2 is hereby affixed to and shall become part of Contract No. DIR-VPC-03-018 dated April 21, 2003, ("Contract") between the State of Texas, acting by and through the Department of Information Resources ("DIR") and Oracle Corporation ("Oracle"). This Amendment, as incorporated into the Contract, is subject to all terms, conditions, restrictions and limitations contained in the Contract not in conflict with this Amendment including the limitation of liability provision.

The Contract is hereby modified and agreed to as follows:

1. Section 3., Merger of Appendices/Order of Precedence. Delete Appendices B and C and replace with the following:

Appendix B, Oracle E-Business Global Price List, dated January 23, 2004  
Appendix C, Oracle E-Business Global Price List Supplement, dated January 23, 2004

Except as provided in this Amendment, all other terms and conditions, and provisions of the Master Agreement 2003 shall remain in full force and effect as provided therein.

IN WITNESS WHEREOF, this Amendment has been executed by the duly authorized representatives of the parties and is in full force and effect as of the date of the last party to sign.

4-Year Term License at 80% of Perpetual License; 2-Year Term License at 35% of Perpetual License; 1-Year Term License at 20% of Perpetual License  
 \*\*As of the Effective Date of the Master Agreement 2003, current releases of the programs marked with \* \*\* do not meet the requirements of Appendix A: Paragraph 4 (Technology Access Clause).

- 1 An option must be licensed at the same level as its parent. Example: number of Flow Manufacturing users = number of Discrete Manufacturing users. If the parent has multiple metrics, the option must be licensed at the same level as its parent for each metric. Example: number of Advanced Pricing users = number of Order Management users AND number of Advanced Pricing Electronic Order Lines = number of Order Management Electronic Order Lines.
- 2 Primary Usage: is defined as each User of the following applications: Financials, Discrete Manufacturing, Process Manufacturing, Project Costing and Purchasing. Each such User is counted only once based on primary usage. You must specify how many Users you are licensing for each application. Primary Usage of one of the applications listed above provides the User with the right to use any or all of the other application programs listed above for which you are licensed. Primary Usage does not provide you with the right to use other application programs including the extensions or options to the application programs listed above.
- 3 Order Management is licensed based upon the number of application users AND the number of order lines entered from any source other than those entered by licensed Order Management Users. Order Management User licenses are required for all individuals who are using Order Management. In addition, any order that is entered electronically into Order Management must be licensed using the Electronic Order Line metric. This applies to order lines originating in iStore, Quoting, EDI/XML transactions, legacy applications or any other source. (Order lines entered manually by the licensed Order Management users are covered under the Order Management User license)
- 4 For the purpose of licensing this program (except Healthcare Transaction Base), only the processors on which 9AS Standard Edition and/or Enterprise Edition and this program are running are counted for the purpose of determining the number of processors required to license this program. For the purpose of licensing Healthcare Transaction Base, only the processors on which 9AS Enterprise Edition and this program are installed and/or running are counted for the purpose of determining the number of processors required to license this program.
- 5 The number of Applications Users for Tutor for Applications must match the number of Application Users of each Application for which the customer is using Tutor. If the application is licensed with a metric based on all the individuals in an organization, i.e., Person, Employee, then everyone in the LOB or organization must be licensed using the Self Service Tutor for Applications. If the application is licensed with any other metric, i.e., Purchase Line, Order Line, then the number of Application Users for Tutor for Applications must match the number of Application Users that the customer would have licensed for the application, had this metric been available.
- 6 This product requires HQAPP approval.
- 7 If licensed with Clinical, the total number of application users and application read-only users of Thesaurus Management System must match the number of application users of Clinical. If licensed separately, the minimum of application users for Thesaurus Management System is 1, the minimum of application read-only users is 5.
- 8 Customers must pay for both the module and the subscriber/workstation fee.
- 9 Separate Remote Data Capture licenses are required for remote site-based data entry. In-house entry users require Clinical licenses. Remote Data Capture is licensed by Application User when the annual CRF Page volume cannot be estimated, or if it is more cost effective.
- 10 If the customer is running Activity Based Management in conjunction with a 3rd party Financials application, and not Oracle Financials, then licenses of Oracle Financials are not required.
- 11 The customer is required to maintain Professional User 2003 licenses for at least 10% of the employee population.
  - The official source for the total company employee population is the company's annual report for publicly held companies. For private firms, this information must be verified in writing by a person who is authorized to make such a representation on the firm's behalf
  - A company may not license the E-Business Suite 2003 at the division level, unless it has wholly owned subsidiaries. Lines of Business, Departments, and Organizations within a company are not eligible for the E-Business Suite 2003 pricing regardless of whether they meet the minimum licensing requirements
  - If a company's employee population grows by 10% or more and the company is no longer meeting the minimum license requirements, the company will need to purchase incremental user licenses to satisfy the 10% requirement
  - Once minimums are satisfied, they are not required to be met in subsequent purchases.
- 12 Customers who licensed Oracle applications under the E-Business Suite pricing model can continue to purchase licenses per pages 5 and 6 of the March 7, 2003 price list. This rule applies also to customers who do not have a price hold.
- 13 If Managed Assets are \$10 billion or less, the price per \$M in Managed Assets is 2,000. If Managed Assets are greater than \$10 billion, the price per \$M in Managed Assets for the first 10,000 licenses is 2,000, and the price per \$M in Managed Assets for each additional license is 1,000.
- 14 This product is on Controlled Availability and requires approval. Please refer to the Approval Matrix on <http://esource.oraclecorp.com> for more information. If you are an Oracle partner, please contact your Oracle PRN Representative for additional information.
- 15 Where Inventory Management is licensed across multiple plants or warehouses, the Inventory Management options (Mobile Supply Chain Applications, Warehouse Management, Transportation) can be licensed individually for each plant/warehouse. Within each plant/warehouse using the Inventory option, the option must be licensed at the same user count as Inventory Management.
- 16 Where Discrete Manufacturing is licensed across multiple plants, the Discrete Manufacturing options (Mobile Supply Chain Applications, Flow Manufacturing, Manufacturing Scheduling) can be licensed individually for each plant. Within each plant using the Manufacturing option, the option must be licensed at the same user count as Discrete Manufacturing.
- 17 Where Projects is licensed across many lines of business, the Project Billing option to Project Costing can be licensed individually for each line of business using the Oracle Projects solution. Within each line of business using the Project Billing option, the option must be licensed at the same user count as Project Costing.
- 18 If the customer is running Transportation in conjunction with a 3rd party Inventory Management application, and not Oracle Inventory Management, then licenses of Oracle Inventory Management are not required and the customer must count the number of Oracle Order Management users as a proxy for determining the required number of Inventory/Shipping Users licenses needed for Transportation.

Oracle iLearning Subscription		Subscription Frequency	Minimum
Subscription	48 Hosted Named User	Yearly	\$5,000

iLearning Subscription<sup>1</sup>

<sup>1</sup> At the minimum, the customer must license a number of Named Users and Months that are equal to 5,000 USA (Dollar).

## DEFINITIONS

**User Plus:** is defined as an individual authorized by you to use the programs which are installed on a single server or multiple servers, regardless of whether or not the individual is actively using the programs at any given time. A non-human operated device will be counted as one user plus in addition to all individuals authorized to use the programs, if such devices can access the programs. If multiple hardware or software (e.g., a 17" monitor or a web server product) is used, this number must be measured at the multipoint front end. Automated batching of data from computer to computer is permitted. You are responsible for ensuring that the named user plus per processor maximums are maintained for the programs contained in the user minimum table in the licensing rules section. The minimums table provides for the minimum number of named users plus required and all actual users must be licensed.

**Processor:** shall be defined as all processors where the Oracle programs are installed and/or running. Programs licensed on a Processor basis may be accessed by your internal users (including agents and contractors) and by your third party users.

**Professional User 2003 - External:** is defined as an individual authorized by you to use the application programs which are installed on a single server or multiple servers, regardless of whether or not the individual is actively using the programs at any given time. Professional Users 2003 are allowed to manually enter orders directly into the programs but any orders entered electronically into Order Management from other sources must be licensed separately.

**Professional User 2003 - Internal:** is defined as an individual, who is not your employee, contractor or consultant, authorized by you to use the application programs which are installed on a single server or multiple servers, regardless of whether or not the individual is actively using the programs at any given time. Professional Users 2003 - External are allowed to manually enter orders directly into the programs but any orders entered electronically into Order Management from other sources must be licensed separately.

**Application User, Field Sales User, Financials User, Inventory/Shipping User, Marketing User, Manufacturing User, Purchasing User, TeleSales User, Enterprise Asset Management (EAM) User:** is defined as an individual authorized by you to use the applicable licensed application programs which are installed on a single server or on multiple servers regardless of whether the individual is actively using the programs at any given time. If you license the Self Service Work Request option in conjunction with EAM, you are required to maintain licenses for the equivalent number of EAM Users licensed and you are granted unlimited access to enhance work requests, view work request status and view scheduled completion date for your entire employee population.

**Application Read Only User:** is defined as an individual authorized by you to run only queries or reports against the following application programs for which you have also acquired non-read only application user licenses: Financials, Purchasing, Project Costing, Service Contracts, Project Contracts, Discrete Manufacturing and Process Manufacturing.

**Adapter:** is defined as each software code interface, installed on each Oracle Internet Application Server Enterprise Edition, which facilitates communication of information between each version of a third party software application or system and Oracle Programs.

**Collaboration Program User:** is defined as an individual authorized by you to use the programs which are installed on a single server or on multiple servers regardless of whether the individual is actively using the programs at any given time. For the purposes of counting and licensing the number of Web Conferencing users, a Collaboration Program User within your company is defined as a user able to initiate, or host, a web conference and also participate in a web conference; all participants in this web conference external to your company and attending a web conference are not required to be licensed.

**Annual Transaction Volume:** is defined as the U.S. dollar denominated total value of all purchase orders transacted and all auctions conducted through the Oracle Exchange Platform by you and others during the applicable year of the Oracle Exchange Platform license regardless of whether any such auction results in a purchase order, provided that an auction resulting in a purchase order shall only be counted against the Annual Transaction Volume once.

**Case Report Form (CRF) Page:** is defined as the "electronic equivalent" of what would be the total number of physical paper pages initiated remotely by the Program (measured explicitly in the Program as Received Data Collection Instruments) during a 12-month period. You may not exceed the licensed number of CRF pages during any 12-month period unless you acquire additional CRF pages licenses from us.

**Compensated Individual:** is defined as an individual whose compensation or compensation calculations are generated by the programs. The term Compensated Individual includes, but is not limited to, your employees, contractors, retirees, and any other Person.

**Computer:** is defined as the computer on which the programs are installed. A Computer license allows you to use the licensed program on a single specified computer.

**Cost of Goods Sold:** is defined as the total cost of inventory that a company has sold during their fiscal year. If Cost of Goods Sold is unknown to you then Cost of Goods Sold shall be equal to 75% of total company revenue.

**Electronic Order Line:** is defined as the total number of distinct electronic order lines entered electronically into the Oracle Order Management application from any source (not manually entered by Licensed User Management Users, Professional Users 2003, or Professional Users 2003 External) during a 12 month period. This includes order lines originating as external EDI/XML transactions and/or sourced from other Oracle and non-Oracle applications. You may not exceed the licensed number of order lines during any 12 month period.

**Employee:** is defined as an active employee of yours. Note: The value of these appointments is determined by the size of the active employee population and not the number of actual users. Therefore, all of your active employees must be included in your order when licensing these applications.)

**Entry:** is defined as a unique item (e.g. object, person, entity or item of information) stored within the programs. Replicated entries stored within the programs. Replicated entries are counted as a single entry.

**Expense Report:** is defined as the total number of expense reports processed by the Expenses during a 12 month period. You may not exceed the licensed number of expense reports during any 12 month period.

**Field Technician:** is defined as an engineer, technician, representative, or other person who is dispatched by you, including the dispatcher, in the field using the programs.

**FTE Student:** is defined as any full-time student enrolled in your institution and any part-time student enrolled in your institution counts as 25% of an FTE Student. The definition of "full-time" and "part-time" is based on your policies for student classification. If the number of FTE Students is a fraction, that number will be rounded to the nearest whole number for purposes of license quantity requirements.

**Hosted Named User:** is defined as an individual authorized by you to access the hosted service, regardless of whether the individual is actively accessing the hosted service at any given time.

**Invoice Line:** is defined as the total number of invoice line items processed by the program during a 12 month period. You may not exceed the licensed number of Invoice Lines during any 12 month period unless you acquire additional Invoice Line licenses from us.

**Module:** is defined as each production database naming the programs.

**Order Management User:** is defined as an individual authorized by you, to use the applicable licensed application programs which are installed on a single server or on multiple servers regardless of whether the individual is actively using the programs at any given time. Order Management Users are allowed to manually enter orders directly into the programs but any orders entered electronically from other sources must be licensed separately.

**Partner Organization:** is defined as an external third party business entity that provides value-added services in marketing and selling your products. Depending upon the type of industry, partner organizations play different roles and are recognized by different names, such as reseller, distributor, agent, dealer or broker.

**Person:** is defined as your employee or contractor who is actively working on behalf of your organization or a former employee who has not or more benefit plans managed by the system or continues to be paid through the system. For Time and Labor, a person is defined as an employee or contractor whose rate of labor (piece work) or absences are managed by the system. For Project Resource Management, a person is defined as an individual who is scheduled on a project. For Internal Time, a person is defined as an individual who is charging time to a project via the application. The total number of licenses needed is to be based on the peak number of part-time and full-time people whose records are recorded in the system.

**Ported Number:** is defined as the telephone number that end user's retain as they change from one service provider to another. This telephone number originally resides on a telephone switch and is moved into the responsibility of another telephone switch.

**Purchase Line:** is defined as the total number of purchase line items processed by the application during a 12 month period. Multiple purchase lines may be created on either a renunciation or purchase order or may be automatically generated by other Oracle Application programs. For Procurement, Purchase Lines are counted as all line items on an approved requisition created in Procurement. For Purchasing Intelligence, Purchase Lines are counted as the line items on purchase orders processed through the application. This does not include communication on the same P.O. For each application, you may not exceed the licensed number of Purchase Lines during any 12 month period unless you acquire additional Purchase Line licenses from us. You may acquire a different number of Purchase Line licenses for each program (Number of Purchase Lines for Procurement could be a smaller number than for Purchasing Intelligence).

**Real-time Partner Interface Processes® (RPIPs®):** are defined as business processes between trading partners. Preconfigured system-to-system XML-based dialogs for the relevant E-Business Suite Application(s) are provided. Each preconfigured RPIP includes a business document with the vocabulary and a business process with the choreography of the message dialog.

**Service Order Line:** is defined as the total number of service order entry line items processed by the program during a 12 month period. Multiple service order entry line items may be entered as part of an individual customer service order or quote. You may not exceed the licensed number of Service Order Lines during any 12 month period unless you acquire additional Service Order Line licenses from us.

**Subscriber:** is defined as (a) a working telephone number for all wireline devices; (b) a portable handset or paging device that has been activated by you for wireless communications and paging; (c) a residential drop or a non-residential device serviced by a cable provider; or (d) a live connected dialy meter. The total number of Subscribers is equal to the aggregate of all types of Subscribers. If your business is not defined in the primary definition of Subscriber above, Subscriber is defined as each U.S. \$1,000 increment of your gross annual revenue as reported to the SEC in your annual report or the equivalent accounting or reporting document.

**Suite:** is defined as all the functional software components described in the product documentation.

**Trainer:** is defined as an employee, contractor, student or other person who is being recorded by the program.

**Workstation:** is defined as the client computer from which the programs are being accessed, regardless of where the program is installed.

**\$M in Revenue:** is defined as one million United States dollars in all income (interest income and non interest income) before adjustments for expenses and taxes generated by you during a fiscal year.

**\$M in Managed Assets:** is defined as one million U.S. dollars of the following total: (1) Book value of investment in capital leases, direct financing leases and other finance leases, including residuals, whether owned or managed for others, active on the program; plus (2) Book value of assets on operating leases, whether owned or managed for others, active on the program; plus (3) Book value of loans, notes, conditional sales contracts and other receivables, owned or managed for others, active on the program; plus (4) Book value of non-earning assets, owned or managed for others, which were previously leased and active on the program, including assets from term-terminated leases and repossessed assets; plus (5) Original cost of assets underlying leases and loans, originated and active on the program; then sold within the previous 12 months.

## GENERAL LICENSING RULES

### DESIGNATION

If your Program License does not specify a term, the Program license is perpetual and shall continue unless terminated as otherwise provided in the Agreement.

- 4 Year Term:** A Program license specifying a 4 Year Term shall commence on the Effective Date of the order and shall continue for a period of 4 years. At the end of the 4 Year Term the Program license shall terminate automatically.
- 2 Year Term:** A Program license specifying a 2 Year Term shall commence on the Effective Date of the order and shall continue for a period of 2 years. At the end of the 2 Year Term the Program license shall terminate automatically.
- 1 Year Term:** A Program license specifying a 1 Year Term shall commence on the Effective Date of the order and shall continue for a period of 1 year. At the end of the 1 Year Term the Program license shall terminate automatically.

## ORACLE SUPPORT SERVICES

Oracle Support Services (OSS) offers the following programs. Software Updates to provide customers with the right to Oracle product upgrades, Oracle Product Support for 24x7 support of all Oracle products, and Oracle Advanced Product Support for a menu of additional services designed to provide an enhanced level of support. Services may vary by country. For availability, contact your local Support Sales representative. For a complete description of Oracle Support Services programs, refer to the internal Sales Support website at <http://marketing.us.oracle.com> and select Support Marketing.

### Software Updates (formerly known as Update Subscription)

Software Updates is a service that provides customers with rights to new Oracle releases including product upgrades, maintenance releases and patches. This service may be purchased as a stand-alone annual subscription. Prices shown on this price list are annual fees and apply to both perpetual and term licenses.

### Product Support

Product Support is a 24x7 support service that provides direct access to Oracle experts for product-specific questions about installing and operating Oracle software. Web based support is provided via OracleMetalink. Features of Metalink include proactive notifications, customized home pages, technical libraries and forums, product life-cycle information, a bug database, and the ability to log technical assistance requests. Software Updates is a prerequisite. Prices shown on this price list are annual fees and apply to both perpetual and term licenses.

### Advanced Product Support

Advanced Product Support is designed to provide an enhanced level of support to Oracle customers. Advanced Product Support delivers tailored, flexible support solutions built to meet the customers' specific business requirements. Advanced Product Support customers have the flexibility to purchase standard or combine standard services with specific offerings to provide a full solution. Contact your local Support Sales representative for Advanced Product Support information and pricing.

### Incident Support

Incident Support is a web-based incident pack support model through which technical support is available in packages of 10 incidents at a cost of 1,800 USA (Dollar). This service is available for the following products, across all platforms:

- Oracle Database Standard Edition
- Oracle Database Personal Edition
- Oracle Database Lite
- Incident Server Support Packages provide incident-based web support for the following limited product sets:
  - Oracle Database Server Support Package (2,000 USA (Dollar) for 10 incidents on one server).
  - Oracle Database Enterprise Edition, Oracle Database Standard Edition, Partitioning, Real Application Clusters
  - Oracle Application Server Support Package (1,000 USA (Dollar) for 10 incidents on one server).
  - Internet Application Server Enterprise Edition, Internet Application Server Standard Edition

With the purchase of Incident Support and Incident Server Support Packages, customers receive access to OracleMetalink, which provides 24x7 web-based technical support including web-based Technical Assistance Requests.

### Customer Support Services Policies and Definitions

The complete policy can be found in the Technical Support Policies at <http://www.oracle.com/support>

## ORACLE OUTSOURCING

Oracle offers complete application, database, and hardware management services, which can help lower a customer's IT maintenance costs and increase support resolution time.

### Administration Services

Administration Services are system administration, application technology management and monitoring activities provided remotely by Oracle for licensed Oracle programs. Administration Services are contracted on yearly terms; the billing is annual in advance. Customers purchasing outsourcing for either E-Business Suite or Technology Online must meet the minimum annual net fees for Administration Services of 48,000 USA (Dollar) and minimum monthly net fees of 4,000 USA (Dollar). Customers purchasing outsourcing for both E-Business Suite and Technology Online must meet the minimum annual net fees for Administration Services of 96,000 USA (Dollar) and minimum monthly net fees of 8,000 USA (Dollar). Prices shown on this price list are monthly fees and apply to both perpetual and term licenses.

### Computer and Administration Services

Computer Services must be sold together with Administration Services. Computer and Administration Services are system administration, application technology management, and monitoring activities for licensed Oracle programs that are provided by Oracle from a data center hosting facility to which the customer has remote applications access. Computer and Administration Services are contracted on yearly terms; the billing is annual in advance. Customers purchasing outsourcing for either E-Business Suite or Technology Online must meet the minimum annual net fees for Computer and Administration Services of 72,000 USA (Dollar) and minimum monthly net fees of 6,000 USA (Dollar). Customers purchasing outsourcing for both E-Business Suite and Technology Online must meet the minimum annual net fees for Computer and Administration Services of 144,000 USA (Dollar) and minimum monthly net fees of 12,000 USA (Dollar). Prices shown on this price list are monthly fees and apply to both perpetual and term licenses.

## Included and Prerequisite Products

Certain Oracle products may need other Oracle products to be installed as a prerequisite for their operation. The following is a guide to products which are shipped with the license and products which require a separate license purchase. It is the responsibility of the Sales Representative and Contract Administrator to specify products included with a license but requiring separate order. Version numbers are indicated only where there is a specific license dependency.

Not all platforms have product availability in the same release.

Restricted Use licenses may be used only to run and install the licensed Program with which they are included. Specific restrictions for such licenses are described in the licensed Program's Documentation.

The "Networking Kit" provides all relevant networking software and any available protocol adapters.

LICENSED PROGRAM	PRODUCT COMPONENT INCLUDED WITH LICENSE & SHIPPED WITH ORDER	PRODUCTS TO BE LICENSED SEPARATELY (PREREQUISITES)
<b>Oracle Database</b>		
Standard Edition One	JServer Enterprise Edition, InterMedia, Enterprise Manager, Workflow, Advanced Queuing, Standard Management Pack, Objects Option, Networking Kit, Objects for OLE, Distributed Option, 64 Bit Option, ODBC Driver, and SQL*Plus, OCI  Restricted Use: Oracle Internet Directory for the purposes of storing Oracle Database Service information.	
Standard Edition	JServer Enterprise Edition, InterMedia, Enterprise Manager, Workflow, Advanced Queuing, Standard Management Pack, Objects Option, Networking Kit, Objects for OLE, Distributed Option, 64 Bit Option, ODBC Driver, and SQL*Plus, OCI and Real Application Clusters.  Note that RAC for SE is only available with 10g. It is not an installable option with Database 9i SL. Also, Customers must use Oracle Cluster Ready Services as the clusterware; third party clusterware is not supported, AND Customers must use Oracle Automatic Storage Management to manage all data.  Restricted Use: Oracle Internet Directory for the purposes of storing Oracle Database Service information.	
Enterprise Edition	JServer Enterprise Edition, InterMedia, Objects Option, Networking Kit, Objects for OLE, Advanced Replication Option, Distributed Option, Parallel Query Option, (including bitmap indexes and parallel bitmap-star query).  SQL*Plus, Visual Information Retrieval and Workflow Also included are: Advanced Backup & Recovery, Queuing, Advanced, Connection Manager & Pooling, 64-bit option, MPI, OCI, ODBC Driver, Enterprise Manager and Enterprise backup utility.  For OS/390 implementation, use of either Access Manager for CICS or Access Manager for IMS/TM is included.  Restricted Use: Oracle Internet Directory for the purposes of storing Oracle Database Service information.	
Personal Edition	Networking kit, Objects for OLE, SQL*Plus, and ODBC driver. All options available with Oracle Database Enterprise Edition (except RAC).	
Lite	Networking kit, ODBC driver and Oracle Database Lite Mobile Option.	Oracle Database Standard Edition or Oracle Database Enterprise Edition.

## Product Migration Listings

When moving supported licenses from one operating system to another, the only cost associated with moving supported licenses from one operating system to another is the cost of the new CD Pack. If a CD Pack isn't available for a particular operating system, customers can contact Client Relations to see whether the product is available on the desired operating system. Shipping and media charges may apply.
