United States Transportation Command (USTRANSCOM) Master and GoldenGate Unlimited License Agreement (ULA) Overview

What is an Oracle Unlimited License Agreement (ULA)?

An Oracle Unlimited License Agreement (ULA) is an arrangement in which an enterprise pays a single up-front fee for licenses. A growth chart is developed between the end user, Oracle sales and DLT to estimate usage of products over the term of the ULA (2-5 years). This includes a buffer. At the end of the term, customers must count and declare usage to Oracle (or "certify"), and are granted that number of licenses for the products covered by the ULA.
