4. Ordering Officer Responsibilities

- a. Ordering is decentralized. Orders are to be prepared by a Government Ordering Officer (a duly warranted Contracting Officer whose warrant authorizes purchases from the GSA Schedule) in accordance with the terms and conditions of the BPA and the GSA Schedule.
- b. This is a multiple award BPA established non-competitively against GSA Schedule. Refer to the ESI website at www.esi.mil for the listing of the multiple award vendors.
- c. It is the responsibility of the Ordering Officer to:
 - i. Comply with the ordering procedures of FAR 8.4 and DFARS 208.4
 - ii. Obtain competition and/or execute and publish brand name or limited source justifications as applicable.]
 - iii. Provide fair opportunity to be considered for each order to all BPA holders who offer the applicable product and/or service required;
 - iv. Ensure compliance with all fiscal laws prior to issuing an order under the BPA;
 - v. Incorporate into the order any regulatory and statutory requirements that are applicable to the agency for which the order is placed, if pertinent requirements are not already included in the BPA; [Note: The DFARS clauses listed in Attachment E of the BPA are those in effect as of the effective date of the BPA. Ordering Offices are responsible for incorporating the most current version of the applicable DFARS clauses in the Delivery Order as appropriate.]
 - vi. Obtain the required authorization to acquire the products or services through the ESI BPA in accordance with FAR Part 51 when a third party is ordering on behalf of a DoD component;
 - vii. Ensure the vendor selected for the order represents the best value and the lowest overall cost alternative. (Note that the BPA terms encourage spot discounting.);

- viii. Review the terms and conditions recommended for ordering software, services or hardware provided in the BPA Attachments and secure the additional terms and conditions that represent the best value for the government.

5. Ordering Process

a. DFARS Regulation 208.74

- i. The BPA is an Enterprise Software Agreement (ESA) as defined in DFARS 208.74, which directs DoD software buyers and requiring officials to check the DoD ESI website (www.esi.mil) for DoD inventory or the availability of an enterprise software agreement before using another method of acquisition. These steps are summarized as follows from the DFARS:
 - 1. Check the Enterprise Agreement Summary Table at www.esi.mil to determine if commercial IT products or services have already been purchased and are available from DoD inventory or through an enterprise software agreement. If they are available, purchase the designated software from DoD inventory and reimburse the SPM.
 - 2. If the required commercial products or services are not available from inventory or from an enterprise software agreement, the DoD component may use an alternate method of acquisition, subject to applicable laws and policy.
 - 3. If the required commercial products or services are not available from inventory but are available from an enterprise software agreement, buyers must follow the procedure in the DFARS Section 208.74.
 - 4. If a DoD component must obtain the commercial products or services outside the DoD ESI BPA, the component may seek a waiver from a management official designated by the DoD Component.

b. Ordering

- i. Orders are subject to the ordering office's local policy, the underlying GSA Federal Supply Schedule, and the terms of the BPA and may be placed directly with the vendor after compliance with the ordering procedures specified in paragraph 4 above by:
