1. Overview of SEWPV

The principal purpose of NASA's Solutions for Enterprise-Wide Procurement (SEWP) V contracts is to provide state-of-the-art information technology and computer technologies, high-end scientific and engineering processing capabilities, network equipment and peripherals. These Government-Wide Acquisition Contracts (GWACs) are available for ordering by all NASA centers, all federal agencies and their contractors. NASA HQ, Greenbelt, Maryland procures and manages the SEWP V effort.

The SEWP V contracts are commercial-based contracts, whose acquisition ensued using formal Source Evaluation Board (SEB) procedures. The SEWP V solicitation comprised one set of terms and conditions, one set of proposal instructions and evaluation criteria, and multiple sets of specifications for Information Technology (IT) developed around core competencies of state-of-the-art IT products.

Effective May 1, 2015, DLT Solutions will provide a wide variety of technology solutions under Group A (NGG15SC07B) and Group D (NGG15SC98B) of the NASA Solutions for Enterprise-Wide Procurement (SEWP V) Contracts.

All the awards are for firm-fixed-price, indefinite-delivery/indefinite-quantity contracts

(IDIQs). Each contract will have an effective ordering period of 10 years, consisting of a five-year base period from May 1, 2015 to April 30, 2020, and one five-year option period from May 1, 2020 to September 30, 2026.

2. About DLT Solutions

DLT Solutions is a distributor of commercial-off-the-shelf (COTS) software and hardware, exclusively focused on serving the public sector. Since 1991, DLT has been dedicated to working with the U.S. Public Sector to solve IT challenges including cloud migration, protection against cybersecurity threats, and data center optimization and consolidation. DLT is a US-based, award-winning provider of Government IT and Cloud Solutions, distinguished for its market knowledge and expertise with its world-class software and hardware manufacturer partners. DLT is differentiated by acquiring deep subject matter knowledge and providing solution delivery to better serve public sector customers. DLT operates from a central office at 2411 Dulles Corner Park Suite 800, Herndon, VA 20171.

DLT's go-to-market expertise is focused on six core technology domains: Cloud Computing, Big Data & Analytics, Cybersecurity, Application Lifecycle, Business Applications, and IT Infrastructure. These domains are strategically crafted around how our technology partners, customers, and vendors go to market. DLT consistently grows its business year over year; our ability to broker vendor and customer relationships, along with our commitment to unparalleled customer satisfaction, enabled the company to achieve more than \$1.3 billion in 2022 bookings across more than 27,000 customer delivery orders.

Based on DLT's deep investments to support our manufacturer partnerships, DLT has earned many of our manufacturer's highest partnership level and is often a vendor's largest or sole partner supporting the Public Sector. Through these high-level partnerships, DLT provides our customers

with a superior level of support and, equally important, highly competitive pricing, adding value in the form of cost savings.

In November 2019, DLT Solutions became a wholly owned subsidiary of Tech Data. Tech Data was founded in 1974. The company is ranked No. 88 on the Fortune 500 and has been named one of Fortune's World's Most Admired Companies for 10 straight years. In September 2021, Tech Data merged with Synnex Corporation to become TD SYNnex, creating the largest global IT distributor with a combined \$59.8B in revenue. Together, DLT and TD SYNnex, as TD Synnex Public Sector, offer the scale of a value-added global distributor coupled with the niche expertise of the longest serving, premier public sector aggregator. We have more than 75 years of combined dedication and service to the U.S. public sector in the federal government, state and local governments as well as education (SLED), healthcare and utility markets.

TD SYNnex Public Sector is a specialized, fully integrated business unit that focuses on bridging the gap between technology partners and U.S. public sector organizations so they can achieve their individual missions. This is accomplished through specialized and scalable aggregator solutions, including channel enablement, engineering services and support, industry-centric marketing, the Diversity Alliance Program, and our Cloud Navigator, Enterprise Agreement Platform, Confirmed Stateside Support and Secure Software Factory offerings.

3. Contract Details

3.1. Contract Numbers

Group A – NNG15SC07B – Computer Based Systems NAICS 334111

Group D – NNG15SC98B – Network Devices, Computer Security Tools and Advanced Video and Conference Tool NAICS 541519

3.2. Period of Performance

DLT's contracts have an effective ordering period of 10 years, starting with a five-year base period from May 1, 2015 to April 30, 2020 and one five-year option to extend the period of performance through September 30, 2026.

3.3. Contract Competition

DLT's contracts were competitively awarded, so no additional formal competition is required for delivery orders. However, as part of a multi-award contract groups A and D, Fair Opportunity must be provided to all other contract holders in those groups.

The Quote Request Tool (QRT), which can be found at <https://www.sewp.nasa.gov/qrt/security/login.sa>, automatically distributes quotes requests to the appropriate contract holders.

For additional information about Fair Opportunity, go to <http://www.sewp.nasa.gov/info/fairconsid.shtml>.

There is no requirement to obtain three quotes as long as all Contract Holders within a Group are given an opportunity to provide a quote.
