Cloudera HUE Accessibility Conformance Report

VPAT® 2.0 Version 1.0 – August 30, 2018

Name of product/version:	Cloudera HUE
Product description:	Web Application
Date:	August 30, 2018
Contact information	gconvertino@cloudera.com
Evaluation methods used:	<p>This VPAT® is based on the results of an accessibility audit of the Cloudera HUE web application conducted by The Paciello Group – a VFO™ company, for the purpose of assessing compliance with the Web Content Accessibility Guidelines (WCAG) 2.0.</p> <p>The following applications were used as part of the audit to identify potential accessibility issues:</p> <ul style="list-style-type: none">• Desktop browsers: Internet Explorer, Firefox, Safari and Chrome (all latest versions)• Assistive technologies: JAWS, NVDA, Dragon and Read & Write• Accessibility testing tools: Browser inspection tools, the Web Developer Extension, Validators, aViewer, Colour Contrast Analyser
Applicable standards/guidelines	<p>This report covers the degree of conformance for the following accessibility standards/guidelines:</p> <ul style="list-style-type: none">• Web Content Accessibility Guidelines (WCAG) 2.0 Level A/AA.• Revised Section 508.• Standard EN 301 549.

Terminology

The terms used in the Conformance Level information are defined as follows:

- **Supports:** The functionality of the product has at least one method that meets the criterion without known defects or meets with equivalent facilitation.
- **Supports with Exceptions:** Some functionality of the product does not meet the criterion.
- **Does Not Support:** The majority of product functionality does not meet the criterion.
- **Not applicable:** The criterion is not relevant to the product.
- **Not evaluated:** The product has not been evaluated against the criterion. This can only be used in WCAG 2.0 Level AAA.

Section 508 Chapter 1: Application and Administration

This VPAT is based on the [Revised 508 Standards](#) which incorporates [WCAG 2.0](#) by reference.

Section 508 Chapter 2: Scoping Requirements

As Cloudera HUE is a web application, the following standards specifically apply:

- All Web Content Accessibility Guidelines (WCAG) 2.0 Level A and Level AA, available at <http://www.w3.org/TR/WCAG20>.
- Section 508 Chapter 3: Functional Performance Criteria (FPC).
- Section 508 Chapter 6: Support Documentation and Services.

Note: When reporting on conformance with the WCAG 2.0 Success Criteria, they are scoped for full pages, complete processes, and accessibility-supported ways of using technology as documented in the [WCAG 2.0 Conformance Requirements](#).

WCAG 2.0 Report

Web Content Accessibility Guidelines (WCAG) 2.0 Success Criteria, Level A

Criteria	Conformance Level	Remarks and Explanations
1.1.1 Non-text Content	Does not support	<ul style="list-style-type: none">• There are several instances of images without appropriate text alternatives, including:• The HUE logo presented in the common header.• Foreign key relationship icons on the Table Browser.• Animated icons used to distinguish between files and folders within the main table on the File Browser page.• Several controls have graphical labels with no accessible alternative, including:• Tooltip icons.• Controls to sort table columns in ascending or descending order.

		<ul style="list-style-type: none"> ● Controls to expand/collapse sections of content. ● Controls to open dialog boxes. ● Menu button controls, such as the control to open/close the main navigation (hamburger) menu. ● The Dashboard section of the application includes multiple charts and graphs which are lacking non-graphical equivalents.
<u>1.2.1 Audio-only and Video-only (Prerecorded)</u>	Not applicable	Cloudera HUE does not contain audio-only or video-only content.
<u>1.2.2 Captions (Prerecorded)</u>	Not applicable	<ul style="list-style-type: none"> ● Cloudera HUE does not contain synchronized media with prerecorded audio content.
<u>1.2.3 Audio Description or Media Alternative (Prerecorded)</u>	Not applicable	Cloudera HUE does not contain any synchronized media which would require an alternative for time-based media or audio description.
<u>1.3.1 Info and Relationships</u>	Supports with exceptions	<ul style="list-style-type: none"> ● Some content lacks appropriate structural markup, including: ● List of navigation links in the common navigation menu are not marked up using HTML list markup. ● Empty HTML heading, list and header cell elements. ● The heading hierarchy on some pages is not logical.
<u>1.3.2 Meaningful Sequence</u>	Supports with exceptions	While for the majority of content in Cloudera HUE the correct reading sequence can be programmatically determined, there are minor exceptions. For example:

		<ul style="list-style-type: none"> When setting up a dashboard, the “Pick an index” instructions fall below/after the related functional controls when, logically, the instructions should appear before those controls.
<u>1.3.3 Sensory Characteristics</u>	Supports	
<u>1.4.1 Use of Color</u>	Supports with exceptions	<ul style="list-style-type: none"> While, in the majority of cases, color is not used as the only visual means of conveying information, indicating an action, prompting a response, or distinguishing a visual element, there are some exceptions. For example: Color alone is used to indicate the ‘drop’ area for drag-and-drop controls within the Dashboard section. Color alone is used to visually distinguish between link and surrounding non-link text on certain pages, such as the ‘Show’ control on the Grid widget within the Dashboard section. Color alone is used to visually indicate the currently active element within the common left assist panel.
<u>1.4.2 Audio Control</u>	Not applicable	Cloudera HUE does not contain any audio which plays automatically for more than 3 seconds.
<u>2.1.1 Keyboard</u>	Does not support	<ul style="list-style-type: none"> Several functional components within Cloudera HUE are not keyboard operable or available to users who cannot use a mouse, including: Drag-and-drop functionality within the Dashboard section.

		<ul style="list-style-type: none"> ● Adding tags within the Table Browser section. ● Pop-overs within charts and graphs within the Dashboard section. ● Custom checkboxes within the File Browser. ● Custom menus throughout the application, such as the those that appear when right-clicking on items in the File Browser table using the mouse. ● General purpose custom buttons used to perform specific actions, such as expanding/collapsing sections of content, such as the hamburger-based common navigation menu, opening dialog boxes (for example, the Time Settings dialog box within the Dashboard section), sorting tables by column (such as those within the sortable data table in the SQL Editor), and saving content (such as the 'Save As' custom button in the SQL Editor panel). ● Custom toggle buttons, for example the 'Set as Default Application' custom button within the Dashboard section.
<u>2.1.2 No Keyboard Trap</u>	Supports with exceptions	<ul style="list-style-type: none"> ● For most components that receives keyboard focus, focus can be moved away from that component using only a keyboard interface, with some minor exceptions. ● The 'Show' field within the Grid widget in the Dashboard section. ● The SQL Editor text field at the top of the SQL Editor tab panel.

		<ul style="list-style-type: none"> The autocomplete text field, used for filtering queries, within the Dashboard section.
<u>2.2.1 Timing Adjustable</u>	Supports	
<u>2.2.2 Pause, Stop, Hide</u>	Not applicable	<ul style="list-style-type: none"> Cloudera HUE does not contain any moving, blinking, scrolling or updating content (presented in parallel with other content).
<u>2.3.1 Three Flashes or Below Threshold</u>	Supports	
<u>2.4.1 Bypass Blocks</u>	Does not support	A mechanism to bypass blocks of content that are repeated on multiple pages, such as navigation bars and other repeated content, is not available.
<u>2.4.2 Page Titled</u>	Supports	<ul style="list-style-type: none">
<u>2.4.3 Focus Order</u>	Does not support	<ul style="list-style-type: none"> Focusable components within Cloudera HUE do not receive focus in an order that preserves meaning and operability. For example: Keyboard focus order through the Job Browser, Jobs Preview, Task History and user controls within the common header is not logical. Keyboard focus order through controls within the SQL Editor title bar is not logical. Keyboard focus within dialog boxes, such as the 'Time Settings' and 'Save As' dialog boxes within the Dashboard section, is not restricted to the dialog box alone. Disabled controls, such as the disabled 'First' and 'Previous' controls within the pagination widget on the File Browser page, unnecessarily fall into keyboard tab focus order.

		<ul style="list-style-type: none"> Keyboard focus does not move into the Task History panel when the user opens this panel.
2.4.4 Link Purpose (In Context)	Does not support	<ul style="list-style-type: none"> In many cases, the purpose of each link cannot be determined from the link text alone or from the link text together with its programmatically determined link context. Instead, the title attribute alone is used to provide the link text. This attribute is intended for providing a supplementary description of the link, not the link text itself.
3.1.1 Language of Page	Supports	
3.2.1 On Focus	Supports	
3.2.2 On Input	Supports	<ul style="list-style-type: none">
3.3.1 Error Identification	Supports with exceptions	<ul style="list-style-type: none"> While, for the majority of input errors that are automatically detected, the items that are in error are identified and the errors are described to the user in text, there are exceptions. For example: Color alone is relied upon to indicate an error if only one of the key/value inputs in the 'Add Properties' widget on the Table Browser page is completed.
3.3.2 Labels or Instructions	Supports with exceptions	<ul style="list-style-type: none"> While labels or instructions are provided for the majority of content that requires user input, there are minor exceptions. For example:

		<ul style="list-style-type: none"> • Several form components, such as text fields that support filtering functionality throughout the application, rely on placeholder text which disappears when the user begins to type and offers insufficient contrast against its background. • Several form components, such as combo boxes on the common banner within the Dashboard section, are missing separate visible labels.
4.1.1 Parsing	Supports with exceptions	<p>While the majority of markup-based content does not have any parsing issues known to have an accessibility impact, there are minor exceptions. For example:</p> <ul style="list-style-type: none"> • Elements are nested in a way that is not permitted by the HTML specification.
4.1.2 Name, Role, Value	Does not support	<ul style="list-style-type: none"> • The name, role, state, value of interface components, or notifications of change to these items, cannot be programmatically determined and is therefore not available to user agents, including assistive technologies. For example: • Custom widgets lack accessible name, role and/or state information, and are therefore not exposed correctly or at all to assistive technologies. These include: • Table sorting functionality, for example within the table in the Grids widget in the Dashboard section.

		<ul style="list-style-type: none"> ● Custom checkboxes, such as the 'Select All Fields'-type checkbox within the Grids widget in the Dashboard section. ● Custom dialog boxes within the File Browser, SQL Editor and Dashboard sections. ● The custom toggle button to allow a user to set/unset a component as a default application within the Dashboard section. ● Custom select fields used within the SQL Editor and the Dashboard. ● Tab navigation widgets, such as the Query History, Saved Queries, Results and Explain tab navigation widget within the SQL Editor. ● Autocomplete fields, such as the Search field within the common header of the application. ● Custom buttons used throughout the application, such as the 'Show Details' icons next to tag-type controls within the Counter widget popup in the Dashboard section. ● Menu buttons that trigger submenus, such as the Query menu button in the application's common header. ● Disclosure (expandable/collapsible) widgets across the application, such as the hamburger menu-based common navigation menu. ● Across the application, there are instances of input fields that have visible label text with no programmatic relationship to the corresponding input field. For example:
--	--	---

		<ul style="list-style-type: none"> ● The 'Date/time field' label next to its associated select field within the Time Settings dialog box in the Dashboard section. ● Field name labels (such as '_root_', '_text_' and '_version_' next to their related checkboxes within the Grid widget in the Dashboard section. ● Groups of radio buttons within the Time Settings dialog box in the Dashboard section. ● Error messages are also displayed below fields within many forms across the application (such as when adding an incorrectly formatted tag within the Table Browser) but are not programmatically associated with the related field, so can be easily missed by assistive technology users.
--	--	---

Web Content Accessibility Guidelines (WCAG) 2.0 Success Criteria, Level AA

Criteria	Conformance Level	Remarks and Explanations
1.2.4 Captions (Live)	Not applicable	Cloudera HUE does not contain synchronized media with live audio content.
1.2.5 Audio Description (Prerecorded)	Not applicable	Cloudera HUE does not contain any synchronized media which would require an audio description.
1.4.3 Contrast (Minimum)	Does not support	Cloudera HUE includes text with a contrast ratio below 4.5:1, including placeholder text, button text, and general page headings.
1.4.4 Resize text	Supports with exceptions	<p>While the majority of pages in Cloudera HUE allow text to be resized / zoomed up to 200% without loss of content or functionality, there are minor exceptions. For example:</p> <ul style="list-style-type: none"> • Much of the SQL Editor is obscured and cannot be scrolled to when full-page zooming is set to 200%. • The right-hand side of the autocomplete results panel related to the Search field in the common header is completely obscured and cannot be scrolled to when full-page zooming is set to 200%.
1.4.5 Images of Text	Supports	
2.4.5 Multiple Ways	Supports	

<u>2.4.6 Headings and Labels</u>	Supports with exceptions	<ul style="list-style-type: none"> While the majority of headings and labels appropriately describe the topic or purpose of their related content, there are minor exceptions. For example: Several dialog boxes across the application, such as the Add Properties dialog box within the Table Browser, contain 'empty' (null) headings.
<u>2.4.7 Focus Visible</u>	Does not support	<p>Keyboard operable user interface components do not provide a visible keyboard focus indicator. For example:</p> <ul style="list-style-type: none"> Visible focus is entirely suppressed around focusable controls within the common header and the expanded hamburger menu. Visible focus is entirely suppressed around focusable controls within the SQL Editor. Several controls, such as the Hide Assist icon within the SQL Editor's left assist panel, are not made visible when they receive keyboard focus.
<u>3.1.2 Language of Parts</u>	Not applicable	Cloudera HUE does not contain changes in human language.
<u>3.2.3 Consistent Navigation</u>	Supports	
<u>3.2.4 Consistent Identification</u>	Supports with exceptions	While the majority of components that have the same functionality within a set of pages are identified consistently, there are some exceptions. For example:

		<ul style="list-style-type: none"> • The same ‘refresh’-type icon is used within the common header and SQL Editor title bar, but the related controls perform different actions – the former triggers a panel displaying recently completed tasks, whereas the latter only appears to indicate that the content represents a history query. • Eraser-like icons are used within the drop-down menu next to the SQL Editor to represent ‘Clear the current editor’, whereas a calendar-like icon is used both in the Query History tab panel and in the Task History panel to represent ‘Clear the query history’.
<u>3.3.3 Error Suggestion</u>	Not applicable	<ul style="list-style-type: none"> • Cloudera HUE does not contain any components expecting user input that have known suggestions for corrections.
<u>3.3.4 Error Prevention (Legal, Financial, Data)</u>	Not applicable	Cloudera HUE does not contain pages that cause legal commitments or financial transactions to occur.

Web Content Accessibility Guidelines (WCAG) 2.0 Success Criteria, Level AAA

Criteria	Conformance Level	Remarks and Explanations
<u>1.2.6 Sign Language (Prerecorded)</u>	Not evaluated	
<u>1.2.7 Extended Audio Description (Prerecorded)</u>	Not evaluated	
<u>1.2.8 Media Alternative (Prerecorded)</u>	Not evaluated	
<u>1.2.9 Audio-only (Live)</u>	Not evaluated	
<u>1.4.6 Contrast Enhanced</u>	Not evaluated	
<u>1.4.7 Low or No Background Audio</u>	Not evaluated	
<u>1.4.8 Visual Presentation</u>	Not evaluated	
<u>1.4.9 Images of Text (No Exception) Control</u>	Not evaluated	
<u>2.1.3 Keyboard (No Exception)</u>	Not evaluated	
<u>2.2.3 No Timing</u>	Not evaluated	
<u>2.2.4 Interruptions</u>	Not evaluated	
<u>2.2.5 Re-authenticating</u>	Not evaluated	
<u>2.3.2 Three Flashes</u>	Not evaluated	
<u>2.4.8 Location</u>	Not evaluated	
<u>2.4.9 Link Purpose (Link Only)</u>	Not evaluated	
<u>2.4.10 Section Headings</u>	Not evaluated	
<u>3.1.3 Unusual Words</u>	Not evaluated	
<u>3.1.4 Abbreviations</u>	Not evaluated	
<u>3.1.5 Reading Level</u>	Not evaluated	

3.1.6 Pronunciation	Not evaluated	
3.2.5 Change on Request	Not evaluated	
3.3.5 Help	Not evaluated	
3.3.6 Error Prevention (All)	Not evaluated	

Section 508 Chapter 3: Functional Performance Criteria (FPC)

Criteria	Conformance Level	Remarks and Explanations
302.1 Without Vision	Does not support	Several custom controls lack accessible name, role and/or state information, and are not operable using the keyboard alone. Graphical content lacks text equivalents. Form controls are not marked up to allow assistive technologies to match the control with its associated visible label. There is no skip link mechanism.
302.2 With Limited Vision	Does not support	Content contrasts insufficiently with its background. Visible keyboard focus is completely suppressed around multiple focusable components, particularly custom components. Zooming and text-resizing causes some content to become obscured or unreadable. A small number of controls, such as table sorting controls, are not honored correctly in Windows' High Contrast mode.
302.3 Without Perception of Color	Does not support	Content contrasts insufficiently with its background. Color alone is often the only visible indication of an actionable control within blocks of text.
302.4 Without Hearing	Supports	
302.5 With Limited Hearing	Supports	
302.6 Without Speech	Supports	
302.7 With Limited Manipulation	Does not support	Many functional custom components cannot be operated using the keyboard

		alone. There is no skip link mechanism. Keyboard focus is often not constrained within custom dialog boxes. Keyboard trapping occurs within a small number of form fields across the application.
302.8 With Limited Reach and Strength	Does not support	Many functional custom components cannot be operated using the keyboard alone. There is no skip link mechanism. Keyboard focus is often not constrained within custom dialog boxes. Keyboard trapping occurs within a small number of form fields across the application.
302.9 With Limited Language, Cognitive, and Learning Abilities	Supports with exceptions	The same icon, such as the 'Refresh'-type icon within the SQL Editor, is used to represent multiple different actions. Complex graphs and charts are missing direct equivalents.

Section 508 Chapter 4: Hardware

Notes: Cloudera HUE is not a hardware product.

Criteria	Conformance Level	Remarks and Explanations
402 Closed Functionality		
<i>402.1 General</i>		
<i>402.2 Speech-Output Enabled</i>		
402.2.1 Information Displayed On-Screen	Not applicable	
402.2.2 Transactional Outputs	Not applicable	
402.2.3 Speech Delivery Type and Coordination	Not applicable	
402.2.4 User Control	Not applicable	
402.2.5 Braille Instructions	Not applicable	
<i>402.3 Volume</i>		
402.3.1 Private Listening	Not applicable	
402.3.2 Non-private Listening	Not applicable	
402.4 Characters on Display Screens	Not applicable	
402.5 Characters on Variable Message Signs	Not applicable	
403 Biometrics		
403.1 General	Not applicable	
404 Preservation of Information Provided for Accessibility		
404.1 General	Not applicable	
405 Privacy		
405.1 General	Not applicable	
406 Standard Connections		

406.1 General	Not applicable	
407 Operable Parts		
407.2 Contrast	Not applicable	
<i>407.3 Input Controls</i>		
407.3.1 Tactilely Discernible	Not applicable	
407.3.2 Alphabetic Keys	Not applicable	
407.3.3 Numeric Keys	Not applicable	
407.4 Key Repeat	Not applicable	
407.5 Timed Response	Not applicable	
407.6 Operation	Not applicable	
407.7 Tickets, Fare Cards, and Keycards	Not applicable	
<i>407.8 Reach, Height and Depth</i>		
407.8.1 Vertical Reference Plane	Not applicable	
407.8.1.1 Vertical Plane for Side Reach	Not applicable	
407.8.1.2 Vertical Plane for Forward Reach	Not applicable	
407.8.2 Side Reach	Not applicable	
407.8.2.1 Unobstructed Side Reach	Not applicable	
407.8.2.2 Obstructed Side Reach	Not applicable	
407.8.3 Forward Reach	Not applicable	
407.8.3.1 Unobstructed Forward Reach	Not applicable	
407.8.3.2 Obstructed Forward Reach	Not applicable	
407.8.3.2.1 Operable Part Height for ICT with Obstructed Forward Reach	Not applicable	

407.8.3.2.2 Knee and Toe Space under ICT with Obstructed Forward Reach	Not applicable	
408 Display Screens		
408.2 Visibility	Not applicable	
408.3 Flashing	Not applicable	
409 Status Indicators		
409.1 General	Not applicable	
410 Color Coding		
410.1 General	Not applicable	
411 Audible Signals		
411.1 General	Not applicable	
412 ICT with Two-Way Voice Communication		
<i>412.2 Volume Gain</i>		
412.2.1 Volume Gain for Wireline Telephones	Not applicable	
412.2.2 Volume Gain for Non-Wireline ICT	Not applicable	
<i>412.3 Interference Reduction and Magnetic Coupling</i>		
412.3.1 Wireless Handsets	Not applicable	
412.3.2 Wireline Handsets	Not applicable	
412.4 Digital Encoding of Speech	Not applicable	
412.5 Real-Time Text Functionality	Not applicable	
412.6 Caller ID	Not applicable	
412.7 Video Communication	Not applicable	
413 Closed Caption Processing Technologies		

413.1.1 Decoding and Display of Closed Captions	Not applicable	
413.1.2 Pass-Through of Closed Caption Data	Not applicable	
414 Audio Description Processing Technologies		
414.1.1 Digital Television Tuners	Not applicable	
414.1.2 Other ICT	Not applicable	
415 User Controls for Captions and Audio Descriptions		
415.1.1 Caption Controls	Not applicable	
415.1.2 Audio Description Controls	Not applicable	

Section 508 Chapter 5: Software

Note: Cloudera HUE is not a software product.

Criteria	Conformance Level	Remarks and Explanations
501.1 Scope – Incorporation of WCAG 2.0 AA	Not applicable	
502 Interoperability with Assistive Technology		
502.2.1 User Control of Accessibility Features	Not applicable	
502.2.2 No Disruption of Accessibility Features	Not applicable	
<i>502.3 Accessibility Services</i>		
502.3.1 Object Information	Not applicable	
502.3.2 Modification of Object Information	Not applicable	
502.3.3 Row, Column, and Headers	Not applicable	
502.3.4 Values	Not applicable	
502.3.5 Modification of Values	Not applicable	
502.3.6 Label Relationships	Not applicable	
502.3.7 Hierarchical Relationships	Not applicable	
502.3.8 Text	Not applicable	
502.3.9 Modification of Text	Not applicable	
502.3.10 List of Actions	Not applicable	
502.3.11 Actions on Objects	Not applicable	
502.3.12 Focus Cursor	Not applicable	
502.3.13 Modification of Focus Cursor	Not applicable	

502.3.14 Event Notification	Not applicable	
502.4 Platform Accessibility Features	Not applicable	
503 Applications		
503.2 User Preferences	Not applicable	
503.3 Alternative User Interfaces	Not applicable	
<i>503.4 User Controls for Captions and Audio Description</i>		
503.4.1 Caption Controls	Not applicable	
503.4.2 Audio Description Controls	Not applicable	
504 Authoring Tools		
504.2 Content Creation or Editing (if not authoring tool, enter “not applicable”)	Not applicable	
504.2.1 Preservation of Information Provided for Accessibility in Format Conversion	Not applicable	
504.2.2 PDF Export	Not applicable	
504.3 Prompts	Not applicable	
504.4 Templates	Not applicable	

Section 508 Chapter 6: Support Documentation and Services

Notes: The support services aimed at Cloudera customers, including support documentation, can be accessed via the MyCloudera website <https://my.cloudera.com> and <http://gethue.com/> (free supplements or blogs)

Criteria	Conformance Level	Remarks and Explanations
601.1 Scope		
602 Support Documentation		
602.2 Accessibility and Compatibility Features	Does not support	The documentation for Cloudera HUE does not list or explain any of the accessibility and compatibility features of the product.
602.3 Electronic Support Documentation	Supports with exceptions	<p>The support documentation is provided in electronic format (in HTML for all topics and in PDF format for some topics). It can be accessed via the MyCloudera website https://my.cloudera.com by clicking on the “View Documentation” link and thus accessing the documentation website. Support documentation can also be accessed here: http://gethue.com/ It’s accessible in the Cloudera HUE user interface by clicking on the “Help” link.</p> <p>The documentation website and its electronic formats do not currently comply with WCAG 2.0 A/AA. Issues include but are not limited to:</p> <ul style="list-style-type: none">● Minimum contrast is an issue. Refer to WCAG Level

		<p>AA 1.4.3 Contrast (Minimum).</p> <ul style="list-style-type: none"> Images do not contain appropriate text alternatives. Refer to WCAG Level A 1.1.1 Non-text Content. Navigational controls contain graphical labels only with no text alternatives. Refer to WCAG Level A 1.1.1 Non-text Content. Navigational controls and iconography with same functionality are not consistently identified. Refer to WCAG Level AA 3.2.4 Consistent Identification
602.4 Alternate Formats for Non-Electronic Support Documentation	Not applicable	All necessary documentation for Cloudera HUE is provided electronically.
603 Support Services		
603.2 Information on Accessibility and Compatibility Features	Does not support	Support services for Cloudera HUE do not provide information on the accessibility and compatibility features of the product.
603.3 Accommodation of Communication Needs	Supports with exceptions	<p>Support service are provided via multiple services:</p> <ul style="list-style-type: none"> Cloudera has the phone line customers can call in to request support. A Cloudera

		<p>employee creates a cases on behalf of the customer.</p> <ul style="list-style-type: none"> ● MyCloudera => Cloudera Support: Open Support Cases. This service includes a user interface to create a case to specify the problem and get support from a human expert. ● MyCloudera => Community. This is a site where customer help each other via a Question-Answer site, based on Lithium Software. ● MyCloudera => Knowledge Base and MyCloudera => Cloudera University ● The documentation website (see section 602 above). <p>Support services for Cloudera HUE are provided, among other means, via email and phone.</p> <p>The other electronic services mentioned above do not fully comply with WCAG 2.0 A/AA.</p>
--	--	---

Standard EN 301 549

EN 301 549 Chapter 4: Functional Performance Statements

Criteria	Conformance Level	Remarks and Explanations
4.2.1 Usage without vision	Does not support	Refer to Section 508 302.1 Without Vision
4.2.2 Usage with limited vision	Does not support	Refer to Section 508 302.2 With Limited Vision
4.2.3 Usage without perception of color	Does not support	Refer to Section 508 302.3 With Perception of Color
4.2.4 Usage without hearing	Supports	
4.2.5 Usage with limited hearing	Supports	
4.2.6 Usage without vocal capability	Supports	
4.2.7 Usage with limited manipulation or strength	Does not support	Refer to Section 508 302.7 With Limited Manipulation
4.2.8 Usage with limited reach	Does not support	Refer to Section 508 302.8 With Limited Reach and Strength
4.2.9 Minimize photosensitive seizure triggers	Supports	
4.2.10 Usage with limited cognition	Supports with exceptions	Refer to Section 508 302.9 With Limited Language, Cognitive, and Learning Abilities

EN 301 549 Functional Accessible Requirements: 5 Generic Requirements

Notes: Cloudera HUE does not contain functionality limited by characteristics that prevents a user from attaching, installing, or using assistive technology.

Criteria	Conformance Level	Remarks and Explanations
5.1 Closed functionality		
5.1.1 Introduction (informative)		
5.1.2 General		
5.1.2.1 Closed functionality	Not applicable	
5.1.2.2 Assistive technology	Not applicable	
5.1.3 Non-visual access		
5.1.3.1 General	Not applicable	
5.1.3.2 Auditory output delivery including speech	Not applicable	
5.1.3.3 Auditory output correlation	Not applicable	
5.1.3.4 Speech output user control	Not applicable	
5.1.3.5 Speech output automatic interruption	Not applicable	
5.1.3.6 Speech output for non-text content	Not applicable	
5.1.3.7 Speech output for video information	Not applicable	
5.1.3.8 Masked entry	Not applicable	
5.1.3.9 Private access to personal data	Not applicable	
5.1.3.10 Non-interfering audio output	Not applicable	

5.1.3.11 Private listening volume	Not applicable	
5.1.3.12 Speaker volume	Not applicable	
5.1.3.13 Volume reset	Not applicable	
5.1.3.14 Spoken languages	Not applicable	
5.1.3.15 Non-visual error identification	Not applicable	
5.1.3.16 Receipts, tickets and transactional outputs	Not applicable	
5.1.4 Functionality closed to text enlargement	Not applicable	
5.1.5 Visual output for auditory information	Not applicable	
5.1.6 Operation without keyboard interface		
5.1.6.1 Closed functionality	Not applicable	
5.1.6.2 Input focus	Not applicable	
5.2 Activation of accessibility features	Not applicable	
5.3 Biometrics	Not applicable	
5.4 Preservation of accessibility information during conversation	Not applicable	
5.5 Operable parts		
5.5.1 Means of operation	Not applicable	
5.5.2 Operable parts discernibility	Not applicable	
5.6 Locking or toggle controls		
5.6.1 Tactile or auditory status	Not applicable	

5.6.2 Visual status	Not applicable	
5.7 Key repeat	Not applicable	
5.8 Double-strike key acceptance	Not applicable	
5.9 Simultaneous user actions	Not applicable	

EN 301 549 Functional Accessible Requirements: 6 ICT with two-way voice communication

Notes: Cloudera HUE does not contain functionality relating to, nor does it require/rely on, two-way voice communication.

Criteria	Conformance Level	Remarks and Explanations
6.1 Audio bandwidth for speech (informative recommendation)	Not applicable	
6.2 Real-time Text (RTT) functionality		
6.2.1 RTT provision		
6.2.1.1 RTT communication	Not applicable	
6.2.1.2 Concurrent voice and text	Not applicable	
6.2.2 Display of Real-time text		
6.2.2.1 Visually distinguishable display	Not applicable	
6.2.2.2 Programmatically determinable send and receive direction	Not applicable	
6.2.3 Interoperability	Not applicable	
6.2.4 Real-time text responsiveness	Not applicable	
6.3 Caller ID	Not applicable	
6.4 Alternatives to voice-based services	Not applicable	
6.5 Video communication		
6.5.1 General (informative)	Not applicable	
6.5.2 Resolution	Not applicable	
6.5.3 Frame rate	Not applicable	

6.5.4 Synchronization between audio and video	Not applicable	
6.6 Alternatives to video-based services	Not applicable	

EN 301 549 Functional Accessible Requirements: 7 ICT with video capabilities

Notes: Cloudera HUE does not provide video capabilities.

Criteria	Conformance Level	Remarks and Explanations
7.1 Caption processing technology		
7.1.1 Captioning playback	Not applicable	
7.1.2 Captioning synchronization	Not applicable	
7.1.3 Preservation of captioning	Not applicable	
7.2 Audio description technology		
7.2.1 Audio description playback	Not applicable	
7.2.2 Audio description synchronization	Not applicable	
7.2.3 Preservation of audio description	Not applicable	
7.3 User controls for captions and audio description	Not applicable	

EN 301 549 Functional Accessible Requirements: 8 Hardware

Notes: Cloudera HUE is not a hardware product.

Criteria	Conformance Level	Remarks and Explanations
8.1 General		
8.1.1. Generic requirements		
8.1.2 Standard connections	Not applicable	
8.1.3 Color	Not applicable	
8.2 Hardware products with speech output		
8.2.1 Speech volume gain		
8.2.1.1 Speech volume range	Not applicable	
8.2.1.2 Incremental volume control	Not applicable	
8.2.2 Magnetic coupling		
8.2.2.1 Fixed-line devices	Not applicable	
8.2.2.2 Wireless communication devices	Not applicable	
8.3 Physical access to ICT		
8.3.1 General (informative)	Not applicable	
8.3.2 Clear floor or ground space		
8.3.2.1 Change in level	Not applicable	
8.3.2.2 Clear floor or ground space	Not applicable	
8.3.2.3 Approach		
8.3.2.3.1 General	Not applicable	
8.3.2.3.2 Forward approach	Not applicable	
8.3.2.3.3 Parallel approach	Not applicable	
8.3.2.4 Knee and toe clearance width	Not applicable	
8.3.2.5 Toe clearance	Not applicable	

8.3.2.6 Knee clearance	Not applicable	
8.3.3 Reach range for ICT		
8.3.3.1 Forward reach		
8.3.3.1.1 Unobstructed high forward reach	Not applicable	
8.3.3.1.2 Unobstructed low forward reach	Not applicable	
8.3.3.1.3 Outward reach		
8.3.3.1.3.1 Clear floor space	Not applicable	
8.3.3.1.3.2 Obstructed (< 510 mm) forward reach	Not applicable	
8.3.3.1.3.3 Obstructed (< 635 mm) forward reach	Not applicable	
8.3.3.2 Side reach		
8.3.3.2.1 Unobstructed high side reach	Not applicable	
8.3.3.2.2 Unobstructed low side reach	Not applicable	
8.3.3.2.3 Obstructed side reach		
8.3.3.2.3.1 Obstructed (<= 255 mm) side reach	Not applicable	
8.3.3.2.3.2 Obstructed (<= 610 mm) side reach	Not applicable	
8.3.4 Visibility	Not applicable	
8.3.5 Installation instructions	Not applicable	
8.4 Mechanically operable parts		
8.4.1 Numeric keys	Not applicable	
8.4.2 Operation of mechanical parts		

8.4.2.1 Means of operation of mechanical parts	Not applicable	
8.4.2.2 Force of operation of mechanical parts	Not applicable	
8.4.3 Keys, tickets and fare cards	Not applicable	
8.5 Tactile indication of speech mode	Not applicable	

EN 301 549 Functional Accessible Requirements: 9 Web

Criteria	Conformance Level	Remarks and Explanations
9.1 General (Informative)		
9.2 Web content requirements		
9.2.1 Non-text Content	Does not support	<ul style="list-style-type: none"> Refer to WCAG Level A 1.1.1 Non-text Content.
9.2.2 Audio-only and Video-only (Prerecorded)	Not applicable	Cloudera HUE does not contain audio-only or video-only content.
9.2.3 Captions (Prerecorded)	Not applicable	<ul style="list-style-type: none"> Cloudera HUE does not contain synchronized media with prerecorded audio content.
9.2.4 Audio Description or Media Alternative (Prerecorded)	Not applicable	Cloudera HUE does not contain any synchronized media which would require an alternative for time-based media or audio description.
9.2.5 Captions (Live)	Not applicable	<ul style="list-style-type: none"> Cloudera HUE does not contain synchronized media with live audio content.
9.2.6 Audio description (prerecorded)	Not applicable	<ul style="list-style-type: none"> Cloudera HUE does not contain any synchronized media which would require an audio description.
9.2.7 Info and Relationships	Supports with exceptions	<ul style="list-style-type: none"> Refer to WCAG Level A 1.3.1 Info and Relationships.
9.2.8 Meaningful Sequence	Supports with exceptions	<ul style="list-style-type: none"> Refer to WCAG Level A 1.3.2 Meaningful Sequence.
9.2.9 Sensory Characteristics	Supports	
9.2.10 Use of Color	Supports with exceptions	<ul style="list-style-type: none"> Refer to WCAG Level A 1.4.1 Use of Color.

9.2.11 Audio Control	Not applicable	Cloudera HUE does not contain any audio which plays automatically for more than 3 seconds.
9.2.12 Contrast (minimum)	Does not support	<ul style="list-style-type: none"> Refer to WCAG Level AA 1.4.3 Contrast (Minimum).
9.2.13 Resize text	Supports with exceptions	<ul style="list-style-type: none"> Refer to WCAG Level AA 1.4.4 Resize Text.
9.2.14 Images of text	Supports	<ul style="list-style-type: none">
9.2.15 Keyboard	Does not support	<ul style="list-style-type: none"> Refer to WCAG Level A 2.1.1 Keyboard.
9.2.16 No Keyboard Trap	Supports with exceptions	<ul style="list-style-type: none"> Refer to WCAG Level A 2.1.2 No Keyboard Trap.
9.2.17 Timing Adjustable	Supports	
9.2.18 Pause, stop, hide	Not applicable	<ul style="list-style-type: none"> Cloudera HUE does not contain any moving, blinking, scrolling or updating content (presented in parallel with other content).
9.2.19 Three flashes or below threshold	Supports	
9.2.20 Bypass Blocks	Does not support	Refer to WCAG Level A 2.4.1 Bypass Blocks.
9.2.21 Page Titled	Supports	
9.2.22 Focus Order	Does not support	<ul style="list-style-type: none"> Refer to WCAG Level A 2.4.3 Focus Order.
9.2.23 Link Purpose (In Context)	Does not support	<ul style="list-style-type: none"> Refer to WCAG Level A 2.4.4 Link Purpose (In Context).
9.2.24 Multiple Ways	Supports	
9.2.25 Headings and Labels	Supports with exceptions	Refer to WCAG Level AA 2.4.6 Headings and Labels.
9.2.26 Focus Visible	Does not support	Refer to WCAG Level AA 2.4.7 Focus Visible.

9.2.27 Language of Page	Supports	
9.2.28 Language of Parts	Not applicable	Cloudera HUE does not contain changes in human language.
9.2.29 On Focus	Supports	
9.2.30 On Input	Supports	
9.2.31 Consistent Navigation	Supports	
9.2.32 Consistent Identification	Supports with exceptions	<ul style="list-style-type: none"> Refer to WCAG Level AA 3.2.4 Consistent Identification.
9.2.33 Error Identification	Supports with exceptions	<ul style="list-style-type: none"> Refer to WCAG Level A 3.3.1 Error Identification.
9.2.34 Labels or Instructions	Supports with exceptions	<ul style="list-style-type: none"> Refer to WCAG Level A 3.3.2 Labels or Instructions
9.2.35 Error Suggestion	Not applicable	<ul style="list-style-type: none"> Cloudera HUE does not contain any components expecting user input that have known suggestions for corrections.
9.2.36 Error Prevention (Legal, Financial, Data)	Not applicable	<ul style="list-style-type: none"> Cloudera HUE does not contain pages that cause legal commitments or financial transactions to occur.
9.2.37 Parsing	Supports with exceptions	<ul style="list-style-type: none"> Refer to WCAG Level A 4.1.1 Parsing.
9.2.38 Name, role, value	Does not support	<ul style="list-style-type: none"> Refer to WCAG Level A 4.1.2 Name, Role, Value.
9.3 WCAG 2.0 Conformance requirements	Does not support	<ul style="list-style-type: none"> Cloudera HUE does not meet conformance requirement 1: Conformance level at level AA.

EN 301 549 Functional Accessible Requirements: 10 Non-web documents

Notes: Cloudera HUE is not a non-web document.

Criteria	Conformance Level	Remarks and Explanations
10.1 General (Informative)		
10.2 Document success criteria		
10.2.1 Non-text Content	Not applicable	
10.2.2 Audio-only and Video-only (Prerecorded)	Not applicable

EN 301 549 Functional Accessible Requirements: 12 Document and support services

Notes: The support services aimed at Cloudera customers, including support documentation, can be accessed via the MyCloudera website <https://my.cloudera.com> and <http://gethue.com/> (free supplements or blogs)

Criteria	Conformance Level	Remarks and Explanations
12.1 Product documentation		
12.1.1 Accessibility and compatibility features	Does not support	Cloudera HUE has support documentation available via the same website (see 602.3 below).
12.1.2 Accessible documentation	Supports with exceptions	<p>The support documentation is provided in electronic format (in HTML for all topics and in PDF format for some topics). It can be accessed via the MyCloudera website https://my.cloudera.com by clicking on the “View Documentation” link and thus accessing the documentation website. Support documentation can also be accessed here: http://gethue.com/ It’s accessible in the Cloudera HUE user interface by clicking on the “Help” link.</p> <p>Some of the documentation website and its electronic formats do not currently comply with WCAG 2.0 A/AA. Issues include but are not limited to:</p> <ul style="list-style-type: none"> • Minimum contrast is an issue. Refer to WCAG Level AA 1.4.3 Contrast (Minimum). • Images do not contain appropriate text alternates. Refer to WCAG Level A 1.1.1 Non-text Content.

		<ul style="list-style-type: none"> • Navigational controls contain graphical labels only with no text alternatives. Refer to WCAG Level A 1.1.1 Non-text Content. • Navigational controls and iconography with same functionality are not consistently identified. Refer to WCAG Level AA 3.2.4 Consistent Identification
12.2 Support services		
12.2.1 General (informative)		
12.2.2 Information on accessibility and compatibility features	Does not support	Support services for Cloudera HUE do not provide information on the accessibility and compatibility features of the product.
12.2.3 Effective communication	Supports with exceptions	<p>Support service are provided via multiple services:</p> <ul style="list-style-type: none"> • Cloudera has the phone line customers can call in to request support. A Cloudera employee creates a cases on behalf of the customer. • MyCloudera => Cloudera Support: Open Support Cases. This service includes a user interface to create a case to specify the problem and get support from a human expert. • MyCloudera => Community. This is a site where customer help each other via a Question-Answer site, based on Lithium Software. • MyCloudera => Knowledge Base and MyCloudera => Cloudera University

		<ul style="list-style-type: none"> • The documentation website (see section 602 above). <p>Support services for Cloudera HUE are provided, among other means, via email and phone.</p> <p>The other electronic services mentioned above do not fully comply with WCAG 2.0 A/AA.</p>
12.2.4 Accessible documentation	Supports with exceptions	<p>The support documentation is provided in electronic format (in HTML for all topics and in PDF format for some topics). It can be accessed via the MyCloudera website https://my.cloudera.com by clicking on the “View Documentation” link and thus accessing the documentation website.</p> <p>The documentation website and its electronic formats do not fully comply with WCAG 2.0 A/AA. Issues include but are not limited to:</p> <ul style="list-style-type: none"> • Minimum contrast is an issue. Refer to WCAG Level AA 1.4.3 Contrast (Minimum). • Images do not contain appropriate text alternates. Refer to WCAG Level A 1.1.1 Non-text Content. • Navigational controls contain graphical labels only with no text alternatives. Refer to WCAG Level A 1.1.1 Non-text Content. • Navigational controls and iconography with same functionality are not consistently identified. Refer to WCAG Level AA 3.2.4 Consistent Identification

EN 301 549 Functional Accessible Requirements: 13 ICT providing relay or emergency service access

Notes: Cloudera HUE does not provide relay or emergency service access.

Criteria		Conformance Level	Remarks and Explanations
	13.1.1 General (Informative)		
13.1.2 Text relay services		Not applicable	
13.1.3 Sign relay services		Not applicable	
13.1.4 Lip-reading relay services		Not applicable	
13.1.5 Captioned telephony services		Not applicable	
13.1.6 Speech to speech relay services		Not applicable	
13.2 Access to relay services		Not applicable
