INTERNET2 NET+ AMAZON WEB SERVICES BY TD SYNNEX PUBLIC SECTOR

Internet2® has partnered exclusively with TD SYNNEX Public Sector to provide higher education campuses with a custom program to access Amazon Web Services (AWS) via the Internet2 NET+ initiative. This NET+ AWS by TD SYNNEX Public Sector program provides key enhancements to the standard AWS terms, currently offered to higher education and research communities, to support enterprise usage and broad adoption across campus, as well as easier procurement. Now universities can quickly and easily access the scale of the cloud, avoiding many of the inherent – and time-consuming – hurdles associated with procuring technology.
