

Sepio Systems - End User License Agreement

1. Notice to the End User

This is a legal agreement (“**Agreement**”) between the ordering Activity under GSA Schedule contracts identified in the Order the “**End User**” and Cyber Sepio Systems Ltd. (“**Sepio**”). By accepting the terms hereunder, the End User acknowledges that it has read this Agreement and agrees to be bound by its terms and conditions. If the End User does not agree to all the terms and conditions of this Agreement, then the End User shall not be entitled to use, and shall not use the Product and no accompanying items (including written materials) may be used. The effective date of this Agreement (“**Effective Date**”) is the first date upon which you, the End User, pay for the License hereunder.

2. Product Definition

The term “**Product**” refers to the various components of Sepio’s security software suite – specifically, Sepio Agent and Sepio server, both as updated or modified from time to time. The Product provides Hardware asset inventory visibility, usage policy enforcement and protection against malicious hardware components (“**Rogue Hardware Elements**”) in the physical wireline Ethernet network and peripheral hardware devices connected to endpoints via Universal Serial Bus (USB). The protection service provided by the Product (the “**Rogue Device Mitigation Service**”) is provided to supported Ethernet Switch and Wireless LAN Controller (WLC) devices and to endpoints running one of the supported Operating Systems. Sepio Agent continually protects the endpoints, while Sepio server is installed on the End User’s servers. *The failure to maintain continuous execution of Sepio Agent or improper configuration of the Products will prevent protection to the endpoint.* Continuous operation and proper configuration of the Sepio server is required to provide complete protection. The list of supported Ethernet Switch and Wireless LAN Controller (WLC) devices will be provided by Sepio upon request of the End User.

3. Intellectual Property Rights Definition

The term “**Intellectual Property Rights**” means, on a worldwide basis, trademarks, service marks, trade names, trade dress, logos, copyrights, rights of authorship, inventions, mask work rights, moral rights, patents, rights of inventorship, and all applications, registrations and renewals in connection with any of the foregoing, database rights, artificial intelligence, rights in software, algorithms, know-how, trade secrets, rights of publicity, privacy and/or defamation, rights under unfair competition and unfair trade practices laws,
