

Simplify distance teaching and learning

Experience Blackboard Collaborate, a modern web conferencing solution for your Virtual Learning Environment

Today's environment is rapidly changing and educators require a solution to help them directly meet the multitude of academic, technical, and financial demands they face. An environment that must enable real-time online teaching, learning and collaboration in ways that are engaging, personal, and meaningful to today's technologically-savvy, mobile-enabled learners—a generation of learners determined to participate actively in their education.

Blackboard Collaborate is an engaging web conferencing application built for education that is reliable, simple and convenient for end users to be connected anytime, anywhere. Designed with the learner in mind, Blackboard Collaborate delivers a level of engagement that makes students forget they're not in a physical classroom.

Blackboard Collaborate Web Conferencing

Blackboard Collaborate goes well beyond traditional web conferencing to meet the expansive collaboration needs of today's educators and learners. Our highly-accessible web conferencing capabilities will enable your institution to support virtual classroom teaching, meetings, webinars, professional development, and more with robust features, such as an interactive whiteboard, multi-point video, breakout groups, polling, and application and desktop sharing.

24/7 Learning with Mobile Collaboration

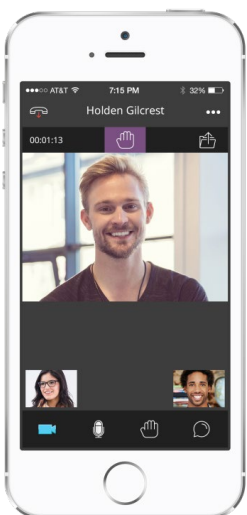

Today's active learners expect anytime, anywhere access to education opportunities. A fully mobile tool isn't just a "nice-to-have"; it is the cost of entry for any technology that supports today's learner. Blackboard Collaborate mobile web conferencing enables institutions to respond to this learner-centric priority by providing access for anyone, anywhere, and on any LMS, enabling students to collaborate and learn on the go. With Blackboard Collaborate mobile capabilities, participants will be able to:

- Join a web-browser based conference to view session content
- Communicate via chat and audio
- Interact in many ways—answering poll questions, raising their hands, joining a breakout session—to replicate the classroom experience
- Access standards based, mobile friendly MP4 recordings

“

Got to see and play with Blackboard Collaborate, and it looks great! Excited for the release and features.”

Blackboard User

Blackboard Collaborate: Platform, Services, Proven Practices

- Designed for education, optimised for learning
- Fast, quick, one click start up (runs directly in the browser)
- Reliable and dependable, with high ROI
- Anytime, anywhere access
- Rapid adoption with minimal hand-holding
- Ongoing integrations with Blackboard Learn, Moodlerooms & Moodle
- Wide spectrum of collaboration choices for everyone
- Highly accessible to support individual needs and learning styles
- Active learning experience on PC, tablet, or mobile device

Why Blackboard Collaborate ?

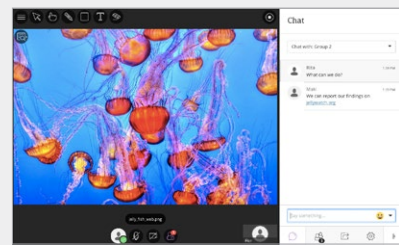

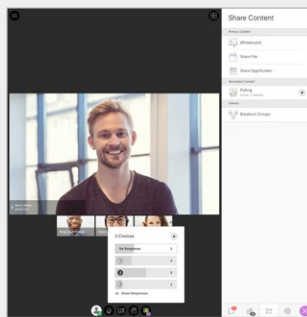

- High quality audio, video and application sharing leveraging standards based on WebRTC technology for the optimal experience
- Standards based, mobile friendly MP4 recordings
- Greater learner engagement for better outcomes
- More learner-to learner, class-to-class collaboration
- Efficient and effective professional development
- Greatest access and reach for increased enrolments
- Savings on travel and related expenses

Integrating Blackboard Collaborate with your LMS

Blackboard Collaborate is focused on education and integration with Blackboard Learn and other leading Learning Management Systems for simplicity, accessibility, and supporting academic workflows. While the “deepest” level of integration for Blackboard Collaborate is with Blackboard Learn and Moodlerooms, it also easily integrates with other LTI compliant LMSs. It provides Application Programming Interfaces (APIs) to help make the custom connection to other academic systems, enabling you to leverage the technology you already have in place.

Maximising Benefits with Professional Services

To achieve the full benefits of a collaboration solution, you must think strategically about deployment, adoption, and uses. Our professional services team will work closely with you to determine academic and administrative goals and build the pathways to meet them.

“
Just saw the most recent version of @Blackboard collaborate, and wow, it looks great.”
