Customer Use Cases

- **See exposure** across the extended attack surface
- **Contextualize threats** with business impact
- **Prioritize** mitigation and threat remediation
- **Continuously monitor** and respond to third-party risk
- **Automate** third-party assessment and on-boarding
- **Manage** your entire vendor lifecycle in one place
- **Communicate** security performance to stakeholders

Facts and Figures

- **540B+** cybersecurity events in our data lake
- **4B+** IPv4 and IPv6 addresses scanned
- **1B+** compromised credentials per week
- **500M+** domain names monitored
- **325M+** cyber rated organizations
- **95M+** threat actors monitored
- **7M+** daily intelligence items
- **6M+** unique IOCs enriched
- **55K+** vendors in network
- **1K+** underground forums
- **700+** APT Groups
- **64** patents

Why Bitsight

6.4x
reduction in ransomware likelihood [1]

75%
reduction in third-party breach probability

45%
reduction in enterprise attack surface breach probability

297%
ROI with a payback period of less than 6 months [2]

96%
customer support satisfaction score

70%
reduction in time spent assessing and onboarding vendors

[1] By improving security rating from <600 to +750
[2] Forrester Total Economic Impact of Bitsight

BITSIGHT | **DLT**

Cyber Risk Intelligence Platform

The world's highest-profile organizations turn to Bitsight to find, measure, mitigate and communicate risk because of the quality of our data. We create knowledge on millions of entities, discovered through proprietary internat scanning technology like **Bitsight Groma**. We map and attribute assets and exposure with AI-powered services like the **Bitsight Graph of Internet Assets** and **Bitsight IQ**. We contextual threat intelligence from the furthest corners of the deep, dark, and open web. All to transform insights into action.

Our objective is simple: to empower informed decision-making, aligned on business outcomes, across all levels of the organization. From threat detection and response in the SOC to cyber risk strategy in the boardroom, Bitsight cyber risk intelligence is powering how security and risk leaders are rethinking cybersecurity.
