

The flexible, cloud-based **SIS + ERP** for institution-wide success

Anthology® Student is the genuine learner-centric student information system (SIS) combined with efficiency-focused enterprise resource planning (ERP) capabilities that powers student success while streamlining operations across your higher education institution.

“Anthology Student is the most innovative full-market, generally available solution for 2024.”

2024 Student Systems – Full Market

Guide students to graduation: Clear journeys, better experiences

Empower students on their academic journey by providing clear choices and simplified processes. Anthology Student guides today's learners—traditional, on-campus, nontraditional, or online—by optimizing their experience with continuous, SaaS-based enhancements and giving them and advisors an end-to-end view of the student's academic journey.

- Built-in advising and degree audit
- Modern and user-friendly student portal
- Simplified transfer credit management process
- Empowered students with financial aid self-service
- Streamlined federal work-study management and tracking

Empower administrative users: Intuitive and configurable

Administrative users can streamline workflows and quickly access insights to make data-driven decisions, all through a centralized, extensible platform. Anthology Student reduces the need for radical customizations that generate technical debt.

- Enrollment-based data model for flexible programming
- Customizable reporting based on department needs
- Modern finance, human capital management, and payroll management experience
- Streamlined enrollment management and academic operations workflows
- Simplified implementation and training with Anthology Services

Anthology ranked as a leader in the IDC MarketScape:

North America Higher Education SaaS and Cloud-Enabled ERP Applications 2024 Vendor Assessment. Document # US51810624

Drive institutional efficiency through automation

Unique tools, powerful automation, and AI capabilities empower users to automate manual tasks and improve workflow efficiency. Dynamically manage your faculty workflow with intelligent capacity planning and automated contracting—leveraging the Microsoft Dynamics 365 platform, Anthology® Finance & HCM capabilities optimize ERP functionality specifically designed for higher education.

- Powerful cloud-based tools automate manual tasks and reduce errors
- Extensive suite of financial reporting and management tools for a clear view of financial decision-making
- Simplified alignment of faculty to course scheduling with Faculty Workload Management
- Simplified part-time and adjunct faculty payroll processes

Expect excellence at every stage, from start to expansion

Our team is ready to guide you through the entire implementation, data migration, user training process, and beyond. We configure and deploy your solution through project reviews, checkpoints, updates, and surveys, as well as state reports and analytics, innovations, and insights on emerging technologies. With an in-house staff of experts, we offer a truly complete solution—including software and services—to ensure success.

Our Anthology Services team offers in-house expertise on SIS and ERP implementation and data migration—guiding you through your modernization journey every step of the way.

- Full data migration services—one of the most challenging parts of implementation
- Complete range of offerings, from managed services to educational consulting and beyond
- On-demand, targeted trainings to support user learning and adoption
- Help throughout the transition process

Anthology Student has made it possible for Central Arizona College to truly redirect its energy toward ensuring learner progress toward graduation.
