

Simplified. Streamlined. Secure.

HP Managed Devices for government

Get world-class devices and services through a flexible as-a-service model

No matter where people are working, work happens on their devices. It's challenging for IT to procure the latest devices to attract top talent while finding cost-efficient ways to keep them running smoothly and securely.

HP Managed Device Services¹ is designed to power the modern workplace. It combines world-class devices and services in a simple, as-a-service model that can scale up or down based on your agency's needs, allowing IT to invest with confidence.

SOLVING FOR TODAY'S WORKFORCE NEEDS

HP Managed Device Services is simple and scalable for device lifecycle management, better employee experiences, and improved security.

SIMPLIFIED FOR IT

Simplify your device lifecycle and upgrade your employee experience with an as-a-service model that includes devices, services, and success management with a predictable monthly cost.

STREAMLINED FOR END USERS

Ensure people can perform their best with devices that work best for their role. HP insights and analytics, support services, and digital experience monitoring help to enhance productivity and ensure a streamlined work experience.²

BUILT-IN SECURITY

Get peace of mind with world-class security³ out of the box, which can be actively monitored to help reduce security risks and compliance issues.

Reduce the complexity of device lifecycle management

It's easier than ever to procure HP hardware and services through a single solution. HP Managed Device Services combines hardware, services, and success with a predictable payment¹ that optimizes IT resources and scales to meet your agency needs.

HP hardware portfolio

Match your assortment of users and their workstyles with a range of multi-OS hardware, including our most secure and manageable Windows notebooks, desktops, and workstations.³

Success management

Have confidence knowing that success management is included in your solution. Success specialists coupled with ITSM integration help support you throughout the extent of your contract.

HP Services

Tailor your solution to achieve your agency outcomes with additional services² that help simplify IT and improve employee productivity.

HP financing

Free up cash flow with a predictable payment¹ and streamline your IT spend with flexible terms that can adapt to meet your growing agency needs.

Reduction in device deployment time⁴

Reduction in user downtime⁴

Reduction in time involved with help desk requests⁴

World-class devices and services in a simple, as-a-service model

HP Managed Device Services helps IT reduce the cost and complexity of procuring, deploying, supporting, and refreshing devices.² That means a streamlined user experience, simplified IT device management, and secured workflows. AI-powered analytics helps IT gain insight into employee needs and ensure their devices deliver optimal experiences.

Simplify IT complexity

Reduce time spent on PC deployment² and reactive management and help IT address issues before they impact end users.⁵

Scale up and down

Streamline your IT spend based on your workforce and IT resourcing needs.

AI-driven insights

Optimize your IT resources to deliver device application and usage insights.^{2,5}

Built-in security

Elevate your agency's security posture with built-in security capabilities on enterprise-class HP devices.

Meet employee needs

Meet every user's workstyle with our range of secure and manageable devices.³

Simplify and streamline device management

HP Managed Device Services¹ simplifies device lifecycle management, improves the employee experience, and helps reduce security risks.
